ZÉFAL MT. MINI

MTB MINI-PUMP

The Zéfal Mt. Mini is a mini pump ideal for inflating all types of mountain bike tyres (from 2.0" to 3.0" wide and regardless of the wheel diameter, 29", 27.5" or even 26"). Mountain bike tyres require a large volume of inflation at low pressures. With an optimized inflation chamber and a direct hose connection, the Zéfal Mt. Mini has all the advantages for quickly reinflating your mountain bike after a puncture.

ALL ALUMINIUM - Robust and light.

DIRECT CONNECTION WITH LEVER - Guaranteed airtightness for easy inflation.

FLEXIBLE CONNECTION - Allows inflation from farther away to prevent damage to the valve stem.

MOUNTING CLIP - Bike mounting clip included.

ZEFAL GRAVEL MINI

MINI-PUMP FOR GRAVEL BIKES

This mini-pump has been developed to fit Gravel bike tyres, ranging from 35 to 47 mm wide. It offers the best compromise between inflation volume, ease of reaching the desired pressure and compactness. Made of aluminium, the Zéfal Gravel Mini is light and very resistant. Its flexible Z-Turn connection will give you peace of mind by avoiding bending or even breaking its Presta valve.

ALL ALUMINIUM - Robust and light.

MUD PROTECTION - Prevents dirt and stays clean.

FLEXIBLE CONNECTION - Allows inflation from farther away to prevent damage to the valve stem.

ZEFAL SWITCH MINI

VERSATILE MINI-PUMP

The Zéfal Switch Mini is an efficient and versatile mini-pump for leisure bikes, city bikes, touring bikes and mountain bikes with intermediate tyres. It is suitable for 28" wheels with tyre widths from 35 to 50 mm. The Zéfal Switch Mini is a convenient pump and easy to use thanks to the Z-Switch system, ensuring an intuitive valve change. This compact pump is also sold with a mounting clip.

Z-SWITCH SYSTEM - Easy change from Presta to Schrader or Dunlop via a simple switch.

ALUMINIUM - Robust and light.

BIKE TAXI

BIKE TOW ROPE

This bike tow rope has been designed to make family cycling, especially mountain biking, more fun and enjoyable for everyone. The Bike Taxi is only to be used on paths, where it is easy to take your child up difficult climbs and thus eliminate physical differences. The Bike Taxi is simply installed on the saddle rails of the person towing and is very quick to attach. Once at the top, the child can easily unhook it. The Dyneema rope, a very strong material, is safely self-retracting. The Bike Taxi is suitable for all types of bicycles and the person towing can use an E-bike.

UNIVERSAL - For all types of saddle rails and stems.

EASY TO INSTALL - No tools required.

EASY TO HANDLE - Fast attachment and detachment to all types of stems.

SAFE - High-performance reel with complete return of the wire.

LIGHTWEIGHT AND COMPACT - Discreet, under the saddle, for only 140g.

Z ADVENTURE T3

TOP-TUBE BAG

Covering the whole top tube, the Z Adventure T3 is an essential frame bag for all ultra cycling enthusiasts.

The dimensions have been thought out to maximise the carrying volume and minimise the risk of touching the pannier with your knees while riding. This bikepacking bag is universal and can be mounted on a road, gravel or mountain bike.

One removable internal compartment allows an optimal storage.

The Z Adventure T3 has a welded TPU-coated polyester construction and is waterproof.

STORAGE - Inside zipped pocket.

WATERPROOF - Welded bag with waterproof material.

UNIVERSAL MOUNTING - Using self-gripping straps.

ANTI-SLIP MATERIAL ON THE LOWER PART - Better grip to the top tube.

Z ADVENTURE POUCH BAG

HANDLEBAR POUCH BAG FOR WATER BOTTLE AND ACCESSORIES

Mounted on the handlebars, close to the stem, this bag is ideal for carrying food or any type of water bottle, such as our 1L Magnum bottle. Used as a pocket caddy, it is convenient and easy to access thanks to its drawstring opening system. The two additional expandable pockets allow you to increase the capacity, for example, by inserting a multi-tool or your nutrition packs. Always at hand, with its universal three-point attachment, it will quickly find its place on your road bike, gravel bike, MTB or Ebike, for daily commuting or for bikepacking.

UNIVERSAL - Compatible with all types of handlebars.

EASY ACCESS - One-handed opening and closing.

MODULAR - Can be mounted on the right or left side thanks to the removable straps.

STABILITY - 3 fixing points for increased stability under heavy loads.

VISIBILITY - Reflective strips for better visibility at night.

Z ADVENTURE F2

COMPACT, WATERPROOF HANDLEBAR BAG

This waterproof handlebar bag, with its simple and elegant design, will quickly find its place on any type of handlebar, thanks to its double strap attachment system.

The soft pads coupled with the locking cord ensure an excellent hold even on very bumpy terrain. This light bag, with a capacity of 2.5L, is made of PVC-free nylon material and is water and abrasion resistant. The front zipper opening allows easy access to your gear, even while riding.

Used alone or as a complement for bikepacking, Z Adventure F2 will be a real asset to carry your equipment safely on long road, mountain bike or gravel rides.

WATERPROOF - IPX4, welded bag with waterproof material.

Z ADVENTURE

F8 & F12 AERO

WATERPROOF BAG FOR AEROBARS

This waterproof front bag is to be installed on aerobars. It is ideal to increase considerably the storage space on your bike. It does not clutter up the cockpit or disrupt your aerodynamics. Its large capacity will allow you to carry light and bulky items, such as your bivouac equipment or spare clothing. It is easy to install and remove thanks to the self-gripping straps. Light and robust, available in two versions 8L or 12L, it will be a first choice ally during your ultra cycling events or for bikepacking, whatever the weather conditions. It also has reflective strips for better visibility at night.

WATERPROOF - Welded bag with waterproof material and roll top closure.

Z ADVENTURE FORK PACK

WATERPROOF BAG AND UNIVERSAL FORK HOLDER

Our complete solution is designed specifically for forks that do not have threaded studs. The kit consists of a waterproof bag, a technical polyamide holder and three universal mounting studs. The Z Adventure Fork Pack can be mounted on any type of fork (rigid or suspended and of any material).

The bag is held in place by three hook-and-loop straps, ensuring that even the heaviest of equipment can be transported safely over rough terrain. Mounted in a balanced way on your bike, this device is lighter and less cumbersome than a traditional luggage rack and is ideal for long touring trips or bikepacking adventures.

WATERPROOF - Welded bag with waterproof material and roll top closure.

UNIVERSAL - Compatible with rigid and suspension forks (Ø16 to 36mm), with or without threaded studs

ADJUSTABLE HEIGHT - Thanks to the 4 fixing holes.

STABILITY - Bag secured by three self-gripping straps.

Z ADVENTURE CAGE

UNIVERSAL BOTTLE CAGE

Looking for a way to carry a lot of water on your bike and not be burdened with a hydration pack? The Z Adventure Cage is a must-have for long distance riding and bikepacking. This bottle cage is versatile, accepting all types of cylindrical containers, from water bottles to insulated water bottles to large diameter rigid cans, if your frame allows. Your water bottle is secured in a sturdy technical polyamide holder and held firmly in place by the wide Hypalon strap, even on the roughest terrain.

UNIVERSAL MOUNTING - On frame or fork, thanks to the 4 fixing holes allowing a great adaptability.

COMPATIBILITY - Accepts bottles from Ø66 to 92 mm.

SECURITY - Tightening by wide Hypalon hook and loop strap.

ROBUST - Fiber reinforced polypropylene support.

TUBELESS REPAIR KIT

QUICK REPAIR TOOL FOR TUBELESS TYRES

The Tubeless Repair Kit is a repair kit for tubeless tyres. Discreet, it will easily find its place either on your bike, thanks to the included mounting clip, or in a saddlebag or in your jersey pocket. By unscrewing one side, you access a double function tool (reamer and needle) used to place the plug in the tyre. And on the other side, the storage part with 5 plugs (Ø 2mm and Ø 4 mm) to perform several sealings. Durable and fast, it is the ideal repair solution in the field, when preventive fluid is not enough to fill a leak.

SIMPLE TO USE - No need to remove the tyre.

DURABLE - Permanently seals punctures up to 5mm for extended tyre life.

EASY ACCESS - Easy to use even when wearing gloves.

MOUNTING CLIP - Bike mounting clip included.

VERSATILE - Integrated tool for tightening the valve core and option to attach a spare chain link (link not included).
